### WAR SHIPS SAILING AWAY.

THE GERMAN VESSELS READY FOR SEA.

A RECEPTION TO THE RUSSIAN VICE-ADMIRAL

AND THE GRAND DUKE ALEXANDER. The fleet of war ships which has been at anchor in two stately columns in the North River is gradually breaking up. One by one the ships have drawn out of line and gone to sea, dipping their country's colors as they steamed up and about the flagship of Admiral Gherardi, and playing their National airs. Since the sailing of the British ships, last Wednesday, the general interest in the fleet has diminished. Visitors come and go between the shore and the ships now only occasionally, and Riverside Drive has lost all of its fete-day appearance and life.

At 6 o'clock last evening the German men-of-war, the Kaiserin Augusta and the Seeadler were in readisteam away later in the evening. The Kaiserin Augusta goes first to Bermuda, while the Secadler is off for an extended cruise.

The American column of ships is broken by the absence of the Atlanta, which started on her southern trip Friday evening, and the Bancroft, which is at the Navy Yard. On Tuesday the Vesuvius will She has been ordered to assist the Bennington in laying out the course for the trial of the new cruiser, New-York, which is to take place

off Cape Ann, Mass. The Russian ships were deserted of their officers yesterday afternoon. The reception given in hotor the Vice-Admical of the Russian fleet and the Grane Duke Alexander by Mrs. William B. Neftel at her home, No. 16 East Forty-eighth-st., had called them One of the Russians, the General Admiral, leaves the fleet Monday. She goes back to Russian waters by way of France. The other two Russian ships, together with the ships of the Italian and Argentine Republic navies will undoubtedly go to Annapolis this week, to be present at the commerce-

ment exercises of the Naval Academy. Fair visitors to the American ships were not de-terred by the rain yesterday. The ships' launches were kept moving between shore and ships, bearing leads of mackintoshed young women. The beats were sheltered by their white wet-weather covers, and their passengers safe and dry.

numbers among its publis a daughter of an officer of the Philadelphia, made merry for an hour or two it the afternoon. The Philadelphia's band played dance music beneath the shelter of the bridge, while the girls in waterproofs waitzed with the officers down the deck in the rain.

The caravels also received their usual number of visitors. In the afternoon boatloads of school children boarded the Santa Maria, and completely took possession of the boat. The officer in charge, who seems to be the only person in the fleet who knows anything at all about the caravels, said positively yesterday that the boats would not leave before the 20th of May.

The tumor that smallpex had broken out on one
of the foreign ships in the fleet was found to have
absolutely no foundation in fact. The sallors on all

THE FIRST GENERAL-ADMIRAL BUILT HERE. The Tribune has received communications from several of its readers, including a few officers of the Navy, asking why attention had not been called to "the fact that the cruiser General-Admiral, of the Russian Squadron, is the same vessel that was built shipbuilder, for the Russian Government, Before the vessels of the naval review fleet arrived here, and also on the day after their arrival, The Tribune published a description of each vessel, its date of construction and its armament. The General-Admiral now here, was given in this list as having been built in 1873, and she is the third Russian war vessel to bear that name, the first of which was built by Mr. Webb, who is yet alive, and as enthuslastic over American shipbuilding industries as when he built the General-Admiral.

Mr. Webb built the General Admiral at his shipyard in this city under a contract with the Russian Government, and when she was launched, on September 21, 1858, she was named the General-Admiral, in honor of the Grand Duke Constantine. She was a wooden screw frigate of 7,000 tons displacement (nearly twice the displacement of the present one) carrying seventy-two guns, and was the fastest veswar built up to that time. Mr. Webb de livered this vessel to the Russian Government at Cronstadt, in person, in 1859, making the passage from New-York to Cherbourg in eleven days and eig t hours. The present General-Admiral is an iron vessel and was ballt in 1873. She carries twenty-

### ADULTERATED SPANISH WINES.

GREAT QUANTITIES OF ARTIFICIAL SHERRIES EXPORTED.

Robert W. Turner, United States Consul at Cadiz. Spain, arrived in this city a few days ago and is spending a short time with friends at No. 127 West Thirty fourth-st. He was appointed by President Harrison in 1889, from Kansas. He talked enter-tainingly to a Tribune reporter about Spanish affairs. "The United States," he said, "ranks third in the

dume of trade carried on with Spain, France and England being first and second according to the official Spoin by way of England are credited to England and a great quantity of meat, flour, machinery, typewriters, chines, etc., is taken to English then reshipped to Spain. In point of fact more Amerirade with England and France has fallen off of late This has been particularly true of sherry and to a been made in large quantities from a combination of German alcohol, made from potatoes, and colored liquids. Eleven thousand butts of G rted into Spain in 1891. The Spanish Govand the adulteration has been checked some what. Nevertheless, fully 30 per cent, of the wine which comes to the United States from Spain is wholly

or in part manufactured from these cheap materials immense profits on wine invite this adulteration. The average price paid by the importers for sherry is \$125 a butt. The new wine sells at the press for about \$75 a butt. When the wine is stored for any length of time the profits leap up enormously. On a butt of old sherry sold at \$300 the dealer calcuites to clear at least 600 per cent. The finest sherry is produced only in one section, Jerez, of about twelve square miles. The total annual capacity of this section is 240,000 hectolitres or about 48,000 butts. Not infrequently, however, the exports reach 350,000 hectolitres, and the home consumption is large. It is apparent that a large part of the export is adulterated."

THE PRINT CLOTH MARKET

Find River, Mass., May 13 (Special).—The print cloth market has been quiet during the week, and sales have been made up principally of odd goods for future delivery. Printers are not demanding goods freely, and there has been little interest manifested

by manufacturers. The stock on hand has been de creased about 18,000 pieces owing to large deliverles. There is a strong feeling among brokers that the price will fall off still more than during the last four weeks, and 3 cents is a common quotation. Goods have sold in Providence at 3 1-16 cents, and some manufacturers expect to see that quotation here wit in a few days. The weekly statement is as follows: Production, 190,000 pieces; deliveries. 208,000; stock on hand, 50,000, last week's stock. 77,000. Sales, 84,000; of which 61,00) were odds: 77,000. PLANS FOR THE OUTDOOR HORSE SHOW.

THE GROUNDS BEING PLACED IN FIRST-CLASS CONDITION-NEW PRIZES.

The United States Horse and Cattle Show Society is determined to popularize its show to be held the week of June 5 as much as possible. Invitations to a luncheon to be given to the press, the judges of the several classes, and to leading horsemen at the clubhouse on the society's grounds on Sunday, June 4, will be issued. The society makes the price of admission \$1, which entitles visitors to scats on any part of the grani stand except the private boxes. The charge for these will be \$100 for the week, or \$20 for the day. Admittance to the "bleachers' on the north and west sides of the grounds will only

The management has also considered the comfort of members, as that part of the grand stand adjoining the clubhouse will be floored over and tables and chairs so arranged that ten and other refreshments can be served. A bridge will connect this part of the grand stand with the clubhouse. Last year many visitors complained of the discomfort of walking over loose gravel, so board walks have been laid. stables and grounds are in perfect order. The lawn is as level as a billiard table and of a brilliant green. The quarter-mile track is also in fine shape.

Although early for the receiving of entries, many important ones have already been made. The Woodlawn Fark Stock Farm, the Forest View Stud, the Cloverdale Stock Farm, the Hempstead Farm, John Jamison, Eugene Higgins, W. A. Wadsworth, Gould Brokaw, Stewart Tod, Rundle and White, A. J. Cassatt, Colonel Kip, George Green, Prescott Lawrence, Charles F. Bates, Albert B. Hilton, George Pepper, F. Gebhard, Henry Seligman, Mitchell Harrion, Winslow Sherman, Howard Borden, Mrs. Bramhall Gilbert, Archibald Duffie, A. H. Moore and many other well-known excibitors have entered the pick of their studs. New members are daily joining, and many women have placed their names on the roll. Hogg, C. B. FEW SALES OF REAL ESTATE.

The condition of affairs in Wall Street always has more or less influence on the real estate market, and on that account the general market during the last week has been unsatisfactory to dealers. There were two or three sales of considerable importance, but they were sales in which the purchasers had little or idle money waiting for profitable layestment in real fancy prices, which buyers will not pay. This has hurt the real estate business much more than the troublein Wall Street. Real estate men have also found within the last ten days that the banks and the other corporations which heretofore advanced money on rea fully into the property on which money is desired and are demanding a higher rate of interest. therefore, in this market has been unusually hard to procure. The real estate men are not discouraged at the present outlook. They believe that better times will come as soon as Wall Street has quieted down, and that money then will be secured at easier rates than at present.

THE VARIED PROGRAMME FOR THE GARDEN. The list of singers, dancers and other entertainers ngaged for the summer season at the Madison Square Garden Amphitheatre, beginning on Monday evening. THE BUNCOERS ARRESTED JUST IN TIME.

Ruffalo, May 13 .- D. L. Roberts, a farmer of Royal on, Niagara County, has just had a narrow escape from being swindled out of \$2,000 by patent flattron bancoers. Recently a man giving his name as D. D Hadley called on Roberts at his farm and pictured in glowing terms the money-making possibilities of his patent. He wanted an active man to help him introduche article, and offered Roberts \$100 a month and all expenses. Roberts accepted the offer, and the two men came to this city and opened an office. Finally Roberts was induced to purchase the patent right for half the State for \$2,000, and gave his notes for the amount. The notes were to have been nego-tlated last Thursday, but in the mean time Poberts had been warned that he was being swindled, and consulted a lawyer, with the result that vesterday Hadley and a confederate named E. A. Wells were

ROBERT BONNER RE-ELECTED PRESIDENT OF THEIR CONGRESS-ADDRESSES BY CANADIANS. springfield, Ohio, May 13.—The first business ses ion of the Scotch-Irish Congress was held yesterday Robert Bonner, of New-York, the president, occupied the chair. The old officers were reelected as follows: President, Robert Bonner; vicepresident-general, the Rev. Dr. John S. McIatosh vice-president at-large, M. T. of Pailadelphia; Wright, of Nashville, Tenn.; second vice-president at-large, the Rev. Dr. J. H. Bryson, of Huntsville, Ala.; secretary, A. C. Floyd, of Knoxville, Tehn. treasurer, John McIlheny, of Philadelphia, also a vice president for each state. Senator Calvin S. Brice was among the vice-presidents chosen. The only other business transacted was the reading of the re port of the Executive Committee.

A meeting was held last evening, with President Ponner in the chair. The Rev. Dr. John Hall, of New-York, was introduced and made a few remarks, and General Gibson and others spoke.

Dr. Lisle said that Canada and the United states are practically one Nation, and should be on politically. A. T. Wood, of Torento, also presented politically. A. T. Wood, of Torchto, also presented greetings from Canada, and a paper on Governor Jeremiah Morrow by Dr. McLoskie followed. The session closed with speeches by John A. McMahon, of Dayton, and Judge Gilmore, of Chillicothe. A beautiful feature of the congress this morning was the dedication of lour trees on the postoffice fawn, one to Andrew Black, Springfield, Ohio; one to Epitraim McDowell, the Ulster ancestor of the family in Ohio and Kentucky; one to General Arthur St. Chir and one to take the George Rogets Clarke. TWO FERSONS KILLED AND OTHERS FATALLY WOUNDED BY A BURSTING LOCOMOTIVE.

Reading, Penn., May 13.-Two persons were killed and several severely injured by the explosion of a seomotive on the Lebanon Valley branch of the Philadelphia and Reading Railroad at Lebanon this morning. The killed are Levi Yecum, engineer, of this city, and John Yocum, of Lebanon, aged four-teen, a nephew of the engineer, who had got on the engine to see his uncle. George Sallada, conductor, of Reading, was fatally injured; Grant Seller, a boy, of Lebanon, who was riding on the engine seriously hurt; William Anspach, crossing watchman, fatally injured. The latter's daughter Annie, nged sixteen, who had just brought her father dinner, was also seriously and perhaps fatally in jured. Isaac Beard, of this city, front brakeman, was severely injured. Several persons living half a block from the scene of the explosion were slightly injured. Their names have not been learned. The locomolity is a complete week. Several of the victims were blown half a square away.

This morning superintendent Lawson took two new men to Evansto and requested the tower operators at that point to instruct them in the duties of tower men; the old that the road is trying to work in new men, intending to discharge the old telegraphers as soon as the new ones are competent. The officials say they need more men, and are not thinking of discharging anybody.

RUBBER FACTORIES MORTGAGED FOR \$2,500,000. Cleveland, Ohio, May 13.-The Mechanical Rubber Company, which has absorbed most of the large rubber manufactories in the United States in a single bination, has mortgaged the whole outfit for \$2,500, 000. A copy of the mortgage, covering the tw places, was filed in the office of Recorder Saals yester-day. The morigage is given to secure 5,000 first mortgage bonds for \$500 each, bearing 6 per cent interest and maturing January 1, 1918. Default in sum to become immediately payable, as usual in such instruments. The mortgage is made to John P. Townsend and John S. Tilney, of the Knickerbocker Trust Company of New-York, as trustees. The bondholders are also to be entitled to the further security of a sinking fund. Of the money raised, \$746,000 is to b

M'NAIR USED STRONG LANGUAGE ON THE CARD. William McNair, ex-secretary of District Assembly No. 49, Knights of Labor, was arrested by postoffice Inspector Shapp yesterday for sending a scarrilous postal card to State Senator McClelland at Albany on April 13. The card read as follows: As an American citizen and an honest workingma--which I can prove-permit me to ask, Did you ever earn an honest dollar in your life? If you have you should be ashamed of yourself as a public servant to make use of such language against the unfor-tunate and honest railroad employes whose interests are in said bill. I ask you how much the railroad corporations promised you for such action?

MR, DE ZENG DIED A NATURAL DEATH.

HIS SON SAYS THAT THE END WAS DUE TO CON-

GESTION OF THE BRAIN-BURIAL TO-DAY. A published report that the death of the Rev. Edward De Zeng in his room at the Melrose, No. 78 Madison ave., on Friday morning, might have been a suicide was contradicted yesterday by his son, Richard De Zeng, who made the following satement:

"The facts regarding my father's death are that on the morning of his death, as he did not appear at the breakfast table, the hotel clerk went up stairs to call him, and on knocking at the door received no answer. He then entered the room, accompanied by one of the servants, and found my father unconscio lying in his bed and covered over by the bedclothes "He noticed a slight smell of gas, which was no perceptible cutside the door, and remarked it to the ervant, who anly detected it on his attention being drawn to it. The window was open fully a foot and nalf. It was found that the gas escaped slightly from

stop-cock attached to a gas stove. There were two gas taps close together, and the stove had been disconnected from the pipe by accident. From an investigation it was found that Mr De Zeng, in turning off the one attachment to the fixture, had accidentally turned on the other one half way. It is due to this unfortunate circumstance that the painful and cruel stories have been published. My father died from conjestion of the brain, and had suffered two previous attacks. He also suffered from kidney troubles."

The Rev. Mr. De Zeng was seventy-four years old and had been feeble for some time. Brief services

and had been feeling for some time. Data services were held at the hotel yesterday, prayers being read by the Rev. Mr. Frescott. The full burial services of the Protestant Episcopal Church will be held to-day at Middletown, Conn., where the body was taken

THE FEDERAL CHARGE AGAINST PELL

George H. Pell, who served a term of imprison ment at Sing Sing for the larceny of funds of the Lenox Hill Bank, surrendered himself to United States Attorney Mitchell yesterday. There is an in-dictment against him in the Federal Court, charging him with aiding in wrecking the Sixth National Bank. He was admitted to ball in \$7,500. This was given by his brother, Charles E. Fell, who owns No. 341 East Fiftiethest. It is likely that Pell will plead gully and that the indictment will be dismissed, as he has already been punished for his share in the bank wrecking transactions.

We know not how many points a day.

They drop and oft-times rise,

But when Dry Goods drop, they drop to stay until they're sold, and those who keep for better times to come always get left.

We have some merchandise to sell-quite considerable.....On some we lose, on some we gain, some we sell at cost ..... But whether it be loss, or gain, or cost, we always sell ..... Take no chances on the future......Fashion is a fickle lady.
